ANCHEV FILMS

ATHENS, GREECE

VOLUME 01 - 2026

Brand Identity & Standards.

A FILM PRODUCTION COMPANY

CONCEPT IMAGE / AI-GENERATED

A system for the work.

A recognizable production identity, with room for every film to have a voice of its own.

Anchev Films is an independent film and video production company in Athens. This volume defines a proposed identity for its work in Greece and internationally, from commercials and branded films to documentary, music and narrative production.

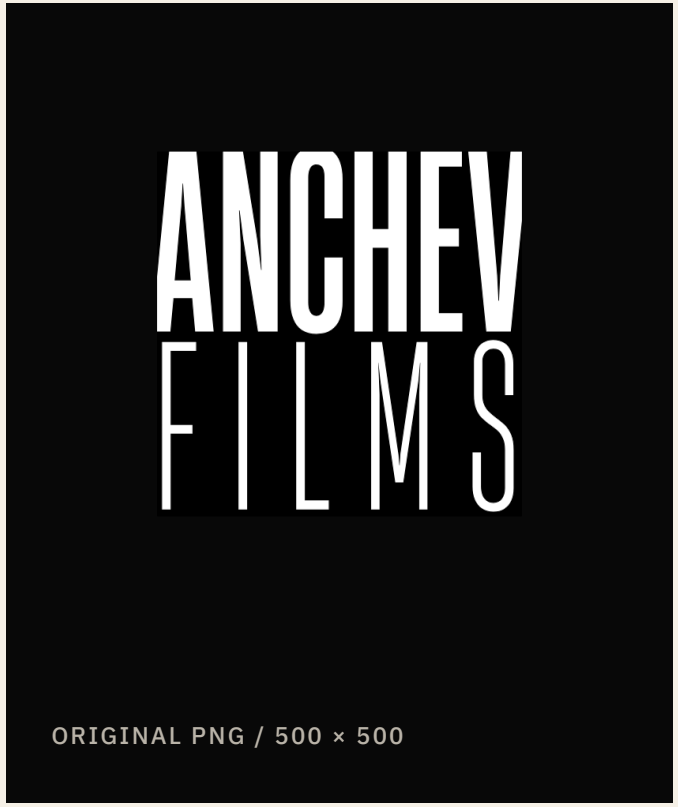

READ THE STATUS

VERIFIED = current public sources.
PROPOSED = recommended standard, awaiting adoption.
CONCEPT = fictional application or AI visualization.

54 Governance & implementation
58 Sources & production notes

Edition 1.0 / 15 October 2026. All new rules and copy are recommendations, not claims of prior company approval.

What already belongs to Anchev.

IDENTITY	Stacked white wordmark. Heavy condensed ANCHEV above lighter, widely spaced FILMS.
PALETTE	Root tokens: Frame #080808, Ivory #F5F0E6 and Brass #C7A66A. Light editorial sections already exist.
TYPOGRAPHY	Bodoni Moda + GFS Didot display stack; Manrope body. No logo typeface attribution was found.
PUBLIC WORK	One project record: Speak Up. Take Action., 2026. Social awareness film; independent initiative.
PUBLIC CONTACT	Athens, Greece / ab@anchevfilms.com / +30 21 0444 5296. Instagram: @anchev.films.

Sources [01-04]. Repository tree f36bf73b11345dc0d5f635d5516c48d193412161. Assets were retrieved unchanged.

Evolve the presentation.

Keep the character. Improve the hierarchy.

RETAIN	Film imagery, an editorial serif/sans contrast, warm neutrals, the stacked logo and the Athens base.
REFINE	At the inspected 1280 × 720 viewport, hero lettering approaches the logo/navigation. Reserve a fixed header zone.
FOCUS	Move Work first. Keep six filmmaking disciplines visible; move event, livestream and podcast material out of the primary brand story.
SIMPLIFY	Use one light and one dark surface system. Consolidate the many near-black and cream values in experience.css.
RESPECT	The studio image is explicitly labeled an AI visualization on the current site. Do not present it as a photographed facility.

IMPLEMENTATION CONTEXT

Static HTML + modular JavaScript; Express server and JSON content. Preserve existing API endpoints, editing workflow, project IDs and canonical URLs. Add tokens and opt-in presentation classes.

Audit is qualitative and source-based; no Lighthouse score or complete accessibility certification is claimed.

Film production. Clearly.

RECOMMENDED POSITIONING / PROPOSED COPY

An Athens film production company shaping ideas into films for brands, artists and audiences.

01 **Commercial films**

Advertising, product and campaign films.

02 **Branded films**

Stories with a brand at their center.

03 **Narrative production**

Shorts, fiction and original projects.

04 **Documentary films**

Real people, places and perspectives.

05 **Music videos**

An artist’s world translated to screen.

06 **Post-production**

Editing, grading, sound and finishing.

Audience priorities: creative agencies, brand teams, artists, commissioners and international production partners. Desired markets are strategy, not verified client wins.

Precision gives imagination room.

Cinematic

Compose with intention. Let the image carry the first emotional cue.

Confident

One lead idea per surface. Large type earns its space.

Sophisticated

Use the right weight, a quiet palette and generous margins.

Creative

Introduce an unexpected crop or scale shift, then restore order.

Precise

Credit people accurately. Make every action and delivery clear.

International

Write directly. Respect each language and the work’s context.

Creative philosophy: protect the film’s own color, rhythm and point of view. The identity governs the frame around the work; the director governs the film.

Say what the film does.

DIRECT / HUMAN / SPECIFIC

CONTEXT	USE / PROPOSED EXAMPLE	AVOID
Headline	Film production in Athens.	World-class audiovisual solutions.
Introduction	We develop and produce films, from the first conversation to the final master.	We turn your dreams into revolutionary experiences.
Project	A student-led story about the cost of staying silent.	A powerful, groundbreaking and unforgettable campaign.
Proposal	The estimate covers two shoot days and three delivery formats.	We provide an end-to-end premium solution.
Email	Thanks for the brief. We’ll send the treatment and production estimate on Friday.	We are thrilled to embark on this exciting journey.

Lead with subject, action and useful detail. Use active verbs. Name the format, timing and people. See the bilingual voice guide for all ten communication channels.

Φυσικά. Συγκεκριμένα.

Η φωνή παραμένει άμεση και ανθρώπινη. Γράφουμε φυσικά ελληνικά, χωρίς κατά λέξη μεταφορά αγγλικών διατυπώσεων.

ΠΛΑΊΣΙΟ	ΠΡΟΤΕΙΝΌΜΕΝΟ	ΑΠΟΦΕΎΓΟΥΜΕ
Ιστοσελίδα	Παραγωγή ταινιών στην Αθήνα.	Κορυφαίες οπτικοακουστικές λύσεις.
Παρουσίαση	Από την πρώτη ιδέα ως την τελική κόπια.	Καινοτομούμε με πάθος και αριστεία.
Ανακοίνωση	Η νέα μας ταινία είναι διαθέσιμη. Δείτε την και γνωρίστε την ομάδα.	Μια μοναδική εμπειρία που αλλάζει τα πάντα.
Άρθρο	Πώς χτίσαμε τον ρυθμό της σκηνής.	Το απόλυτο μυστικό της επιτυχίας.
Credits	Σκηνοθεσία: [όνομα] / Παραγωγή: Anchev Films	Ονόματα χωρίς ρόλους ή άδεια δημοσίευσης.

Preserve tonos and dialytika. Prefer sentence case. All examples are proposed copy; brackets are intentional template fields, never publishable claims.

Learn the principles, keep our voice.

REFERENCE	OBSERVED APPROACH	APPLICATION TO ANCHEV
A24	Large film-led headlines; compact navigation; image color leads.	Use a strong title hierarchy; preserve our logo.
Somesuch	Wide, heavy type and generous white space; editorial latest-work stream.	Give project titles room; avoid copying the type silhouette.
ICONOCLAST	Regional network and directors/film navigation; homepage media access partial.	Make territory and credits legible; no invented global offices.
Stink Films	Image-led work stream; compact controls; director/client metadata.	Keep credits near films; avoid interface clutter.
PRETTYBIRD	Distinctive symbol, restrained black stage, large director naming.	Let author and image lead; do not borrow the mascot.
CANADA	Spare left-aligned index, separated image panels, caption-led archive.	Make work easy to scan; retain accessible local navigation.
PULSE Films	Bold stacked mark over moving image; dark green framing and serif navigation.	A logo can anchor varied films without a uniform grade.

Sources [05-11]. Qualitative visual observations on 15 October 2026. No competitor artwork is reproduced; exact fonts and animation timings are not inferred.

A wider cultural frame.

FESTIVAL SYSTEMS	Sundance / Pentagram	A stable parent identity can contain many voices. Apply consistent margins, not a forced visual style. [12]
INDEPENDENT CINEMA	Chicken & Egg Films	A flexible system can extend to motion and events. Borrow that adaptability, not its motifs or palette. [13]
EDITORIAL CRAFT	PORT	Treat interviews and essays as authored work. Use generous text measure, clear credits and deliberate image rhythm. [14]
FILM TITLE DESIGN	Severance / extraweg	Titles can express a story’s central idea. Our corporate ident stays restrained; individual film titles may be expressive. [15]
LUXURY CAMPAIGNS	Prada / Ritual Identities	A commercial can have a director’s narrative world. Present intention and collaboration alongside the finished film. [16]

The mark already has a voice.

Retain the original.

The condensed upper line and open lower line create a strong contrast in density. The square silhouette is distinctive in credits, presentation covers and small navigation anchors.

A redesign is not necessary to establish the system. No authoritative vector master, alternate lockup or logo typeface was found in the inspected repository. Do not retype or trace it and call it official.

Original file: public/assets/anchevlogo.png. A 500 × 500 px grayscale/alpha PNG: white lettering on a black field, with a transparent outer border.

Give the mark room.

RATIO

Preserve the 1:1 canvas. Visible alpha bounds: x 19-480, y 19-481; 462 × 463 px. Never stretch.

CLEAR SPACE

x = one eighth of the canvas width. Keep x free on all sides, beyond the image canvas.

MINIMUM

72 px preferred; 64 px minimum UI. 18 mm minimum in print. Favicon uses a separate proposal.

PLACEMENT

Align the visible left edge optically to the text grid. For centered cards, center the whole canvas.

SAFETY

Keep clear space inside page or video safe areas. Do not put the mark on faces or active detail.

Logo contrast target: at least 3:1 by brand policy, even though logotypes have a WCAG contrast exemption. Default is white on Frame.

One original. Controlled applications.

Primary / retained

Light / proposed

Badge / proposed

Compact / concept

No alternate official lockup was located. Proposed black/white knockouts use the original lettering as a luminance mask, without redrawing. The AF favicon is a new concept; test at 16, 32 and 48 px before adoption.

STRETCH

RECOLOR

SHADOW

SPACING

LOW CONTRAST

RETYPE

BUSY IMAGE

The existing palette, made deliberate.

01

Frame

#080808

RGB 8, 8, 8

HSL 0 / 0 / 3.14

CMYK 0/0/0/97

Primary dark background; primary text on light

02

Ivory

#F5F0E6

RGB 245, 240, 230

HSL 40 / 42.86 / 93.14

CMYK 0/2/6/4

Primary light background; text on dark

03

Brass

#C7A66A

RGB 199, 166, 106

HSL 38.71 / 45.37 / 59.8

CMYK 0/17/47/22

Brand accent; dark-surface links; primary action fill

04

Paper

#E8E3D7

RGB 232, 227, 215

HSL 42.35 / 26.98 / 87.65

CMYK 0/2/7/9

Editorial panels and secondary light backgrounds

05

Surface

#1B1A17

RGB 27, 26, 23

HSL 45 / 8 / 9.8

CMYK 0/4/15/89

Raised dark surfaces and player controls

Root brand tokens are retained exactly. Paper and Surface are retained from experience.css. CMYK is a formula approximation, not an ICC conversion or press target.

Supporting colors have specific jobs.

COLOR	HEX	RGB	H / S% / L%	C/M/Y/K%	ROLE
Stone	#6B665E	107,102,94	36.92/6.47/39.41	0/5/12/58	Secondary text on Ivory or Paper
Mist	#B9B3A8	185,179,168	38.82/10.83/69.22	0/3/9/27	Secondary text on Frame or Surface
Brass Ink	#7A5C2A	122,92,42	37.5/48.78/32.16	0/25/66/52	Links and accent text on light surfaces
Rule Light	#C9C1B4	201,193,180	37.14/16.28/74.71	0/4/10/21	Decorative light-surface dividers only
Rule Dark	#49453F	73,69,63	36/7.35/26.67	0/5/14/71	Decorative dark-surface dividers only
Success	#286148	40,97,72	153.68/41.61/26.86	59/0/26/62	Success text/icon on Ivory notice
Warning	#79591D	121,89,29	39.13/61.33/29.41	0/26/76/53	Warning text/icon on Ivory notice
Error	#A13F35	161,63,53	5.56/50.47/41.96	0/61/67/37	Error text/icon on Ivory notice
Information	#2D5F7C	45,95,124	202.03/46.75/33.14	64/23/0/51	Information text/icon on Ivory notice

Functional colors sit on Ivory notices in both themes. Pair color with a label and icon. Rule colors are decorative; essential field outlines use Stone or Mist.

Contrast is part of the composition.

DARK APPLICATION

Selected work

Ivory is the voice. Brass marks an action. Mist supports the detail.

View film ↗

LIGHT APPLICATION

Our studio

Frame is the voice. Brass Ink keeps links legible. Stone carries secondary copy.

Start a project ↗

17.63:1	8.67:1	5.01:1	2.03:1
Ivory / Frame	Brass / Frame	Stone / Ivory	Brass / Ivory
PASS: normal text	PASS: normal text	PASS: normal text	FAIL: text / use Brass Ink

Target 4.5:1 normal text; 3:1 large text and essential non-text controls. Suggested surface mix excluding film imagery: 55% light, 40% dark, up to 5% brass. [17]

Twelve candidates. One language brief.

FAMILY	RANGE	LANGUAGE EVIDENCE	ASSESSMENT
Bodoni Moda	400-900 / variable	Latin; no Greek/Cyrillic in inspected metadata	High-contrast drama; existing display. Extra companions needed.
GFS Didot	Regular	Latin + Greek; no Cyrillic in metadata	Elegant Greek companion; narrow weight range.
Manrope	200-800 / variable	Latin + Greek + Cyrillic in current metadata	Current body font; strong utility, familiar geometric tone.
Source Serif 4	200-900 + optical sizes	Latin + Greek + Cyrillic; BGR locl verified	Editorial depth across scripts; recommended display.
IBM Plex Sans	100-700 + width	Latin + Greek + Cyrillic; BGR locl verified	Human detail, clear interfaces; recommended text.
Source Sans 3	200-900 / variable	Latin + Greek + Cyrillic	Excellent reading; more neutral display presence.

All six are OFL families. Assessment is design judgment, not a benchmark score. Metadata is from Google Fonts; final production binaries are checked separately. [18-20]

Choose for the entire system.

FAMILY	RANGE	LANGUAGE EVIDENCE	ASSESSMENT
Old Standard TT	400 / 400i / 700	Latin + Cyrillic; Greek absent in tested file	Beautiful book tone; multilingual display needs a companion.
Noto Serif Display	100-900 + width	Latin + Greek + Cyrillic	Expressive range; potentially heavy family payload.
Literata	200-900 + optical sizes	Latin + Greek + Cyrillic	Rich reading texture; less sharply defined at large scale.
Graphik LCG	9 weights + italics	Foundry lists Latin/Greek/Cyrillic	Excellent commercial alternative; scope-specific paid license.
GT Super	20 styles	Latin listed; Greek/Cyrillic not listed	Distinct editorial voice; fails the standalone script brief.
Suisse Int’l	Commercial family	Latin/Cyrillic documented; Greek unverified	Precise utility; confirm current package and language coverage.

Sources [21-26]. Commercial pricing depends on licensing scope; no trial font is production-approved. Full twelve-criterion evaluation is supplied in research/typography-candidates.csv.

H4	24 / 21.7 / 20	Plex 500	1.25	+0em	none	24-40ch
Body large	22 / 19.7 / 18	Plex 400	1.5	+0em	none	40-60ch
Body	18 / 16.8 / 16	Plex 400	1.6	+0em	none	45-68ch
Small	14 / 14.0 / 14	Plex 400	1.5	+0em	none	40-65ch
Caption	12 / 12.0 / 12	Plex 400	1.4	+0.015em	none	30-60ch
Navigation	14 / 14.0 / 14	Plex 500	1.2	+0.01em	none	1-3 words
Buttons	14 / 14.0 / 14	Plex 500	1.2	+0.01em	none	1-4 words
Editorial label	12 / 12.0 / 12	Plex 500	1.3	+0.08em	uppercase	2-5 words

Reference widths: desktop 1440, tablet 834, mobile 390 px. Between them, supplied clamp() values interpolate. Do not hard-code line breaks on narrow screens; labels may wrap.

Hierarchy is an editorial decision.

PROJECT INTRODUCTION

The space between scenes.

Let the title be expressive. Let the supporting copy give the reader something concrete: the idea, the production approach and the people behind it.

CREDIT / METADATA

Concept study / 2026 / No client

Use Serif Display at 32 px and above. Below that, Plex maintains open counters and reliable UI rhythm. Keep paragraph lengths near 45-68 characters.

SPEAK UP. TAKE ACTION. / OFFICIAL PROJECT STILL

A point of view.

FRAMING

Choose intention over spectacle. Protect the subject’s space.

LIGHT & DEPTH

Preserve authored contrast, motivated light and spatial detail.

GRADE & TEXTURE

Do not recolor every project to brass. Preserve each film’s finish.

Movement should reveal story, not decorate the interface. Avoid a universal grain filter, fake film burns or a mandatory cinematic LUT.

Choose the crop, protect the story.

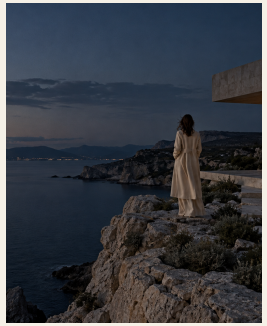

16:9 / WORK

2.39:1 / FEATURE

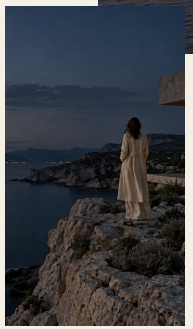

4:5 / SOCIAL

1:1 / AVATAR-POST

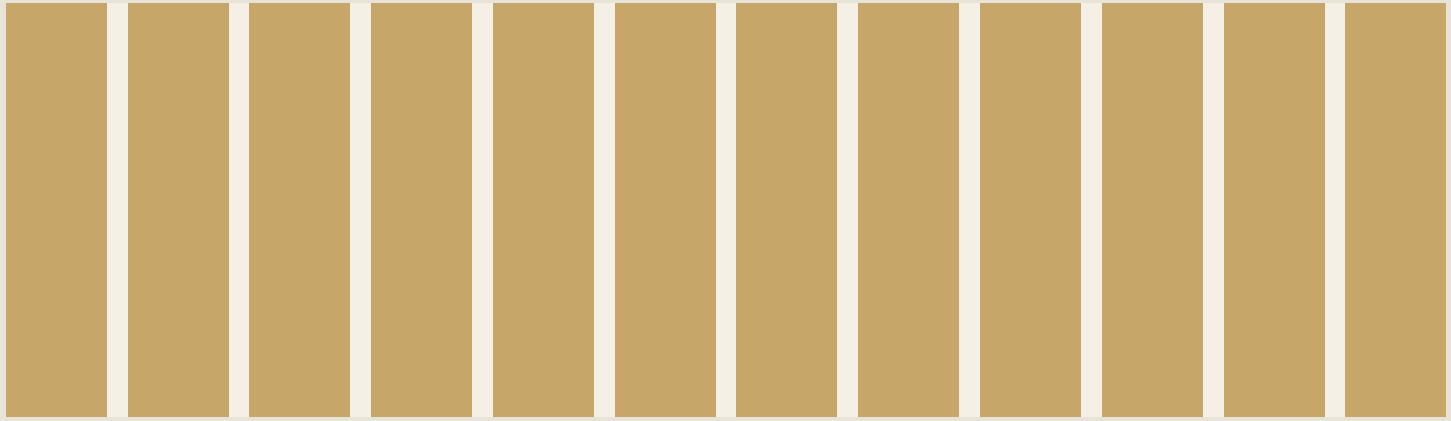

9:16 / STORY

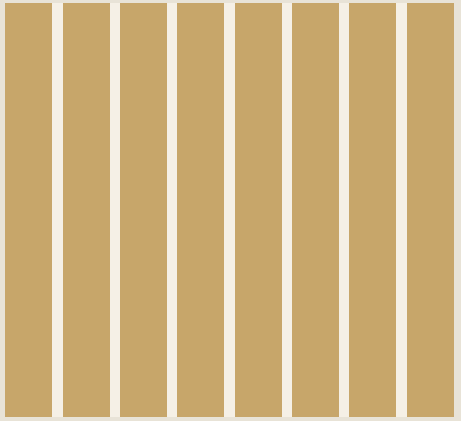

Thumbnails: select one readable action or expression. Keep faces, hands and essential objects inside the crop. Store a focal point for each ratio; do not rely on center-crop for every use.

Text needs a calm zone and measured contrast. If a scrim cannot keep 4.5:1 across every frame, place the title outside the image. Concept image is AI-generated.

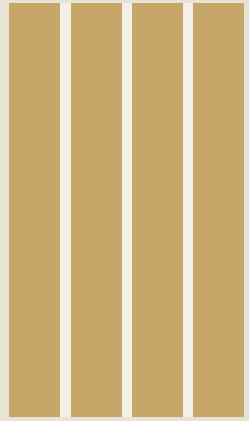

A grid that can breathe.

DESKTOP / 12 COLUMNS

TABLET / 8

MOBILE / 4

RULE	VALUE	USE
Page / container	1440 px / 1280 px max	Prose: 760 px max; body: 68ch
Margins / gutters	48 / 24 desktop; 32 / 24 tablet	20 / 16 mobile
Breakpoints	768 tablet; 1024 desktop; 1440 wide	Content remains fluid between thresholds
Vertical rhythm	4 px base; 8-16 UI; 24-48 grouping	Sections 64 / 80 / 128 mobile-to-desktop

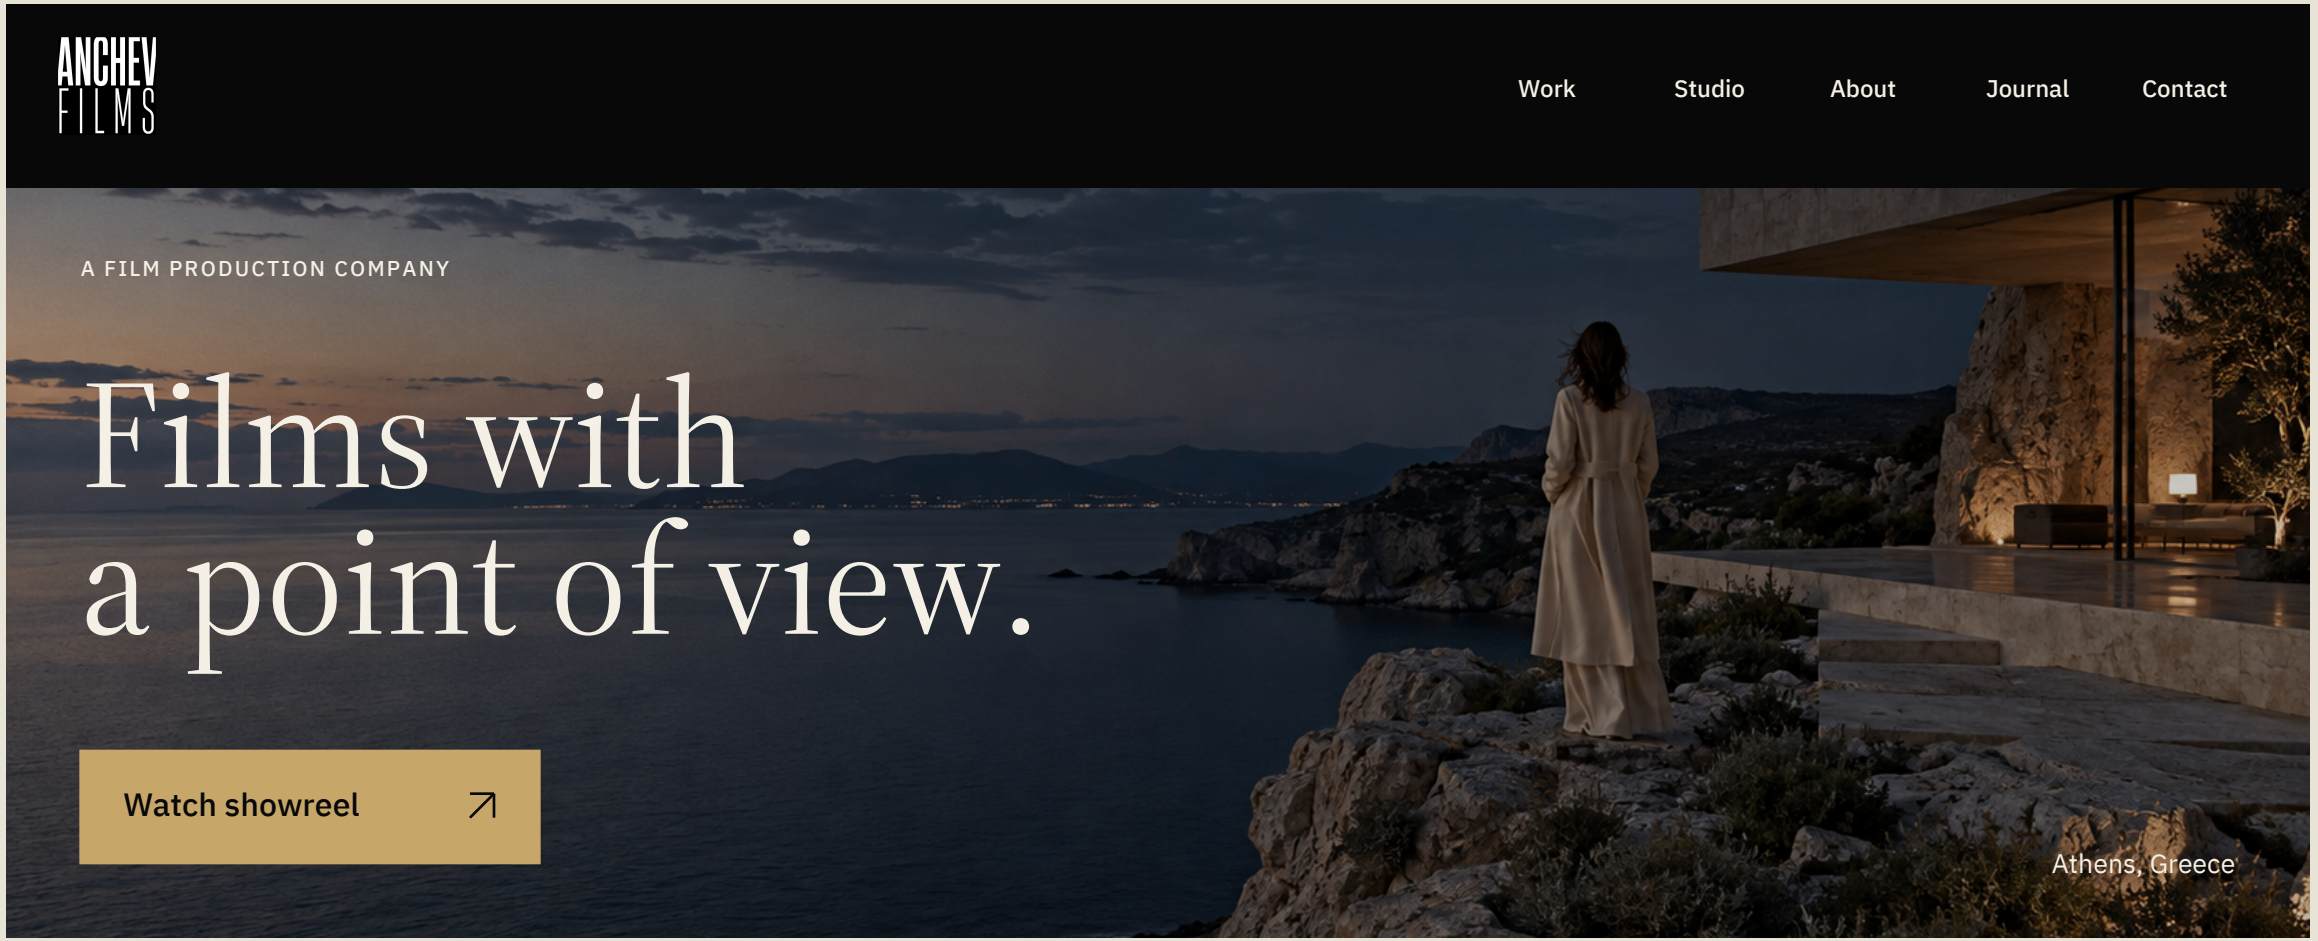

The films come first.

Work	Studio	About	Journal	Contact

HOMEPAGE	Showreel / selected films / introduction / capabilities / originals / studio / contact.
WORK	Curated collection; show only populated categories. No fabricated projects to fill a grid.
PROJECT	Title, context and film; approach, stills, full credits, related work and next project.
STUDIO & ABOUT	Creative environment, working method and verified people. Do not claim unconfirmed dimensions or facilities.
JOURNAL & CONTACT	Film news and useful production stories. One email, clear inquiry paths and a short form.

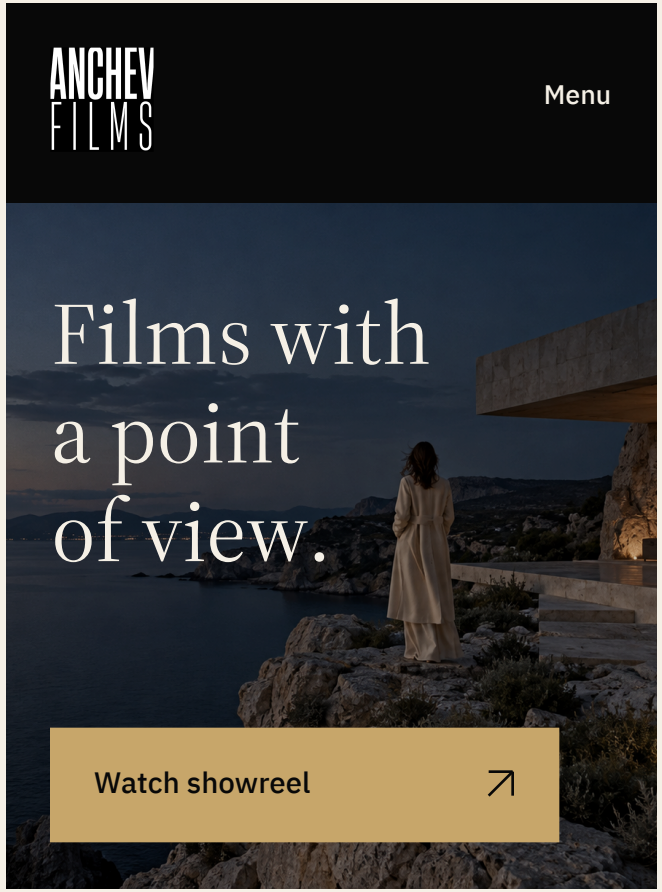

Secondary footer links may retain existing technical-service URLs. Post-production is part of filmmaking. No backend or CMS replacement is proposed.

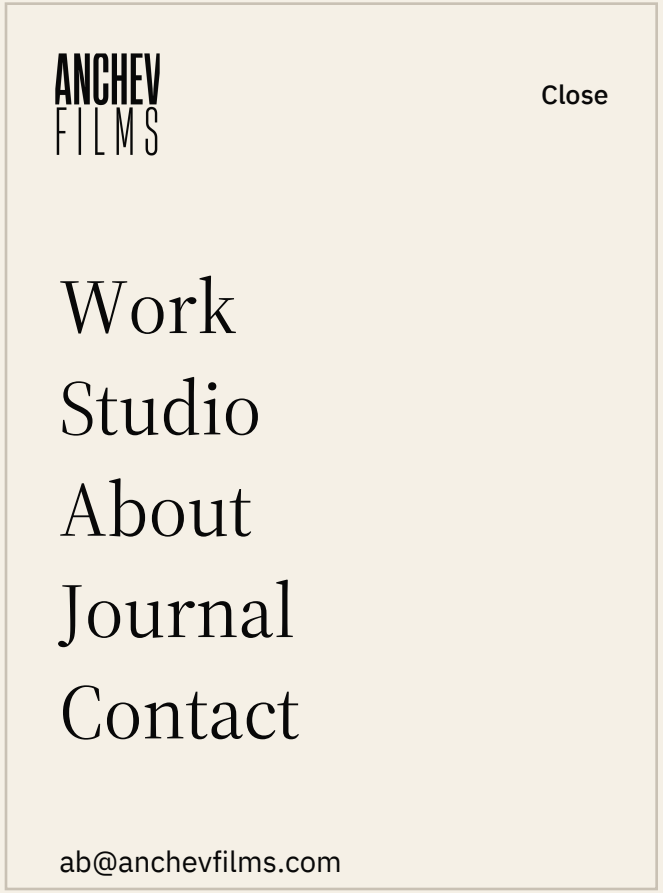

Homepage / desktop

Proposed headline and concept hero image, not a published showreel. Replace with a licensed film poster/video; keep a 96 px header zone and user-controlled playback.

Homepage / mobile

390 PX REFERENCE

These views show the closed and open navigation states. The film poster is visible immediately; motion starts only by choice on reduced-motion or data-saving connections.

Use 20 px side margins, a 64 px logo canvas and 80 px header. Menu targets remain at least 48 px tall. Focus stays within the open menu; Escape closes it and returns focus.

Concept image / proposed copy. The screen mockups are scaled for the publication; implementation dimensions are specified in CSS pixels.

WCAG 2.2 AA target: keyboard support, meaningful alt text, captions, 200% text zoom and 320 px reflow. Test actual components; a style sheet alone does not certify compliance.

Primary inputs: 52 px min height, 16 px padding, 1 px strong outline; invalid state 2 px. Platform AA target-size minimum is 24 px with exceptions; brand target is 48 px. [17,28]

An ident, with one clear gesture.

00:00

HOLD / 0-8F

00:08

REVEAL / 8-20F

00:20

RESOLVE / 20-28F

01:04

HOLD / 28-64F

A quiet reveal into the original mark. No separate letters, no redrawing, no lens flare. The final hold is completely still so the company name can be read.

Master: 1920 × 1080, 24 fps, 72 frames / 3 seconds. Logo canvas 240 px; title-safe centered. Reveal with a simple matte, eased 0.2 / 0.8 / 0.18 / 1. Fade out frames 64-72. Audio optional, never essential.

Storyboard is a new motion concept. Timecodes use HH:MM omitted; seconds:frames at 24 fps. For reduced motion or static deliverables, show the final mark immediately.

Motion supports the edit.

BEHAVIOR	TIMING / DISTANCE	IMPLEMENTATION RULE
Text entrance	320 ms / 16 px	Opacity + translateY; 40 ms stagger, capped at 160 ms.
Image reveal	640 ms / no scale jump	Opacity or simple crop reveal; no parallax by default.
Hover / active	160 ms / 0-2 px	Color/underline first; optional 2 px image movement.
Navigation	320 ms / 8 px	Overlay fades/slides; focus moves after opening.
Page transition	160 ms out / 320 ms in	Progressive enhancement; URLs work without animation.
Video transition	240 ms crossfade	Only between preloaded frames; preserve sound continuity.
Loading	Static skeleton / 160 ms fade	No forced intro. Show meaningful text if loading fails.

Reduced motion: no entrance transforms, autoplay, scroll pinning or animated page transitions.

Opening, closing and credits.

CREDIT SYSTEM

Main title: Serif Display 72-120 px at 1080p. Credits: Plex 36 px / 48 px leading; roles at 28 px. Center the title or align to the lower-left safe grid. Keep legal lines readable.

EXAMPLE / VERIFIED PROJECT

Directed by George Stamou

Produced by Boris Anchev

Use film-specific title art when the director’s concept requires it. Brand credits follow the system; no fabricated awards, selection laurels or client credits.

Safe areas are part of the frame.

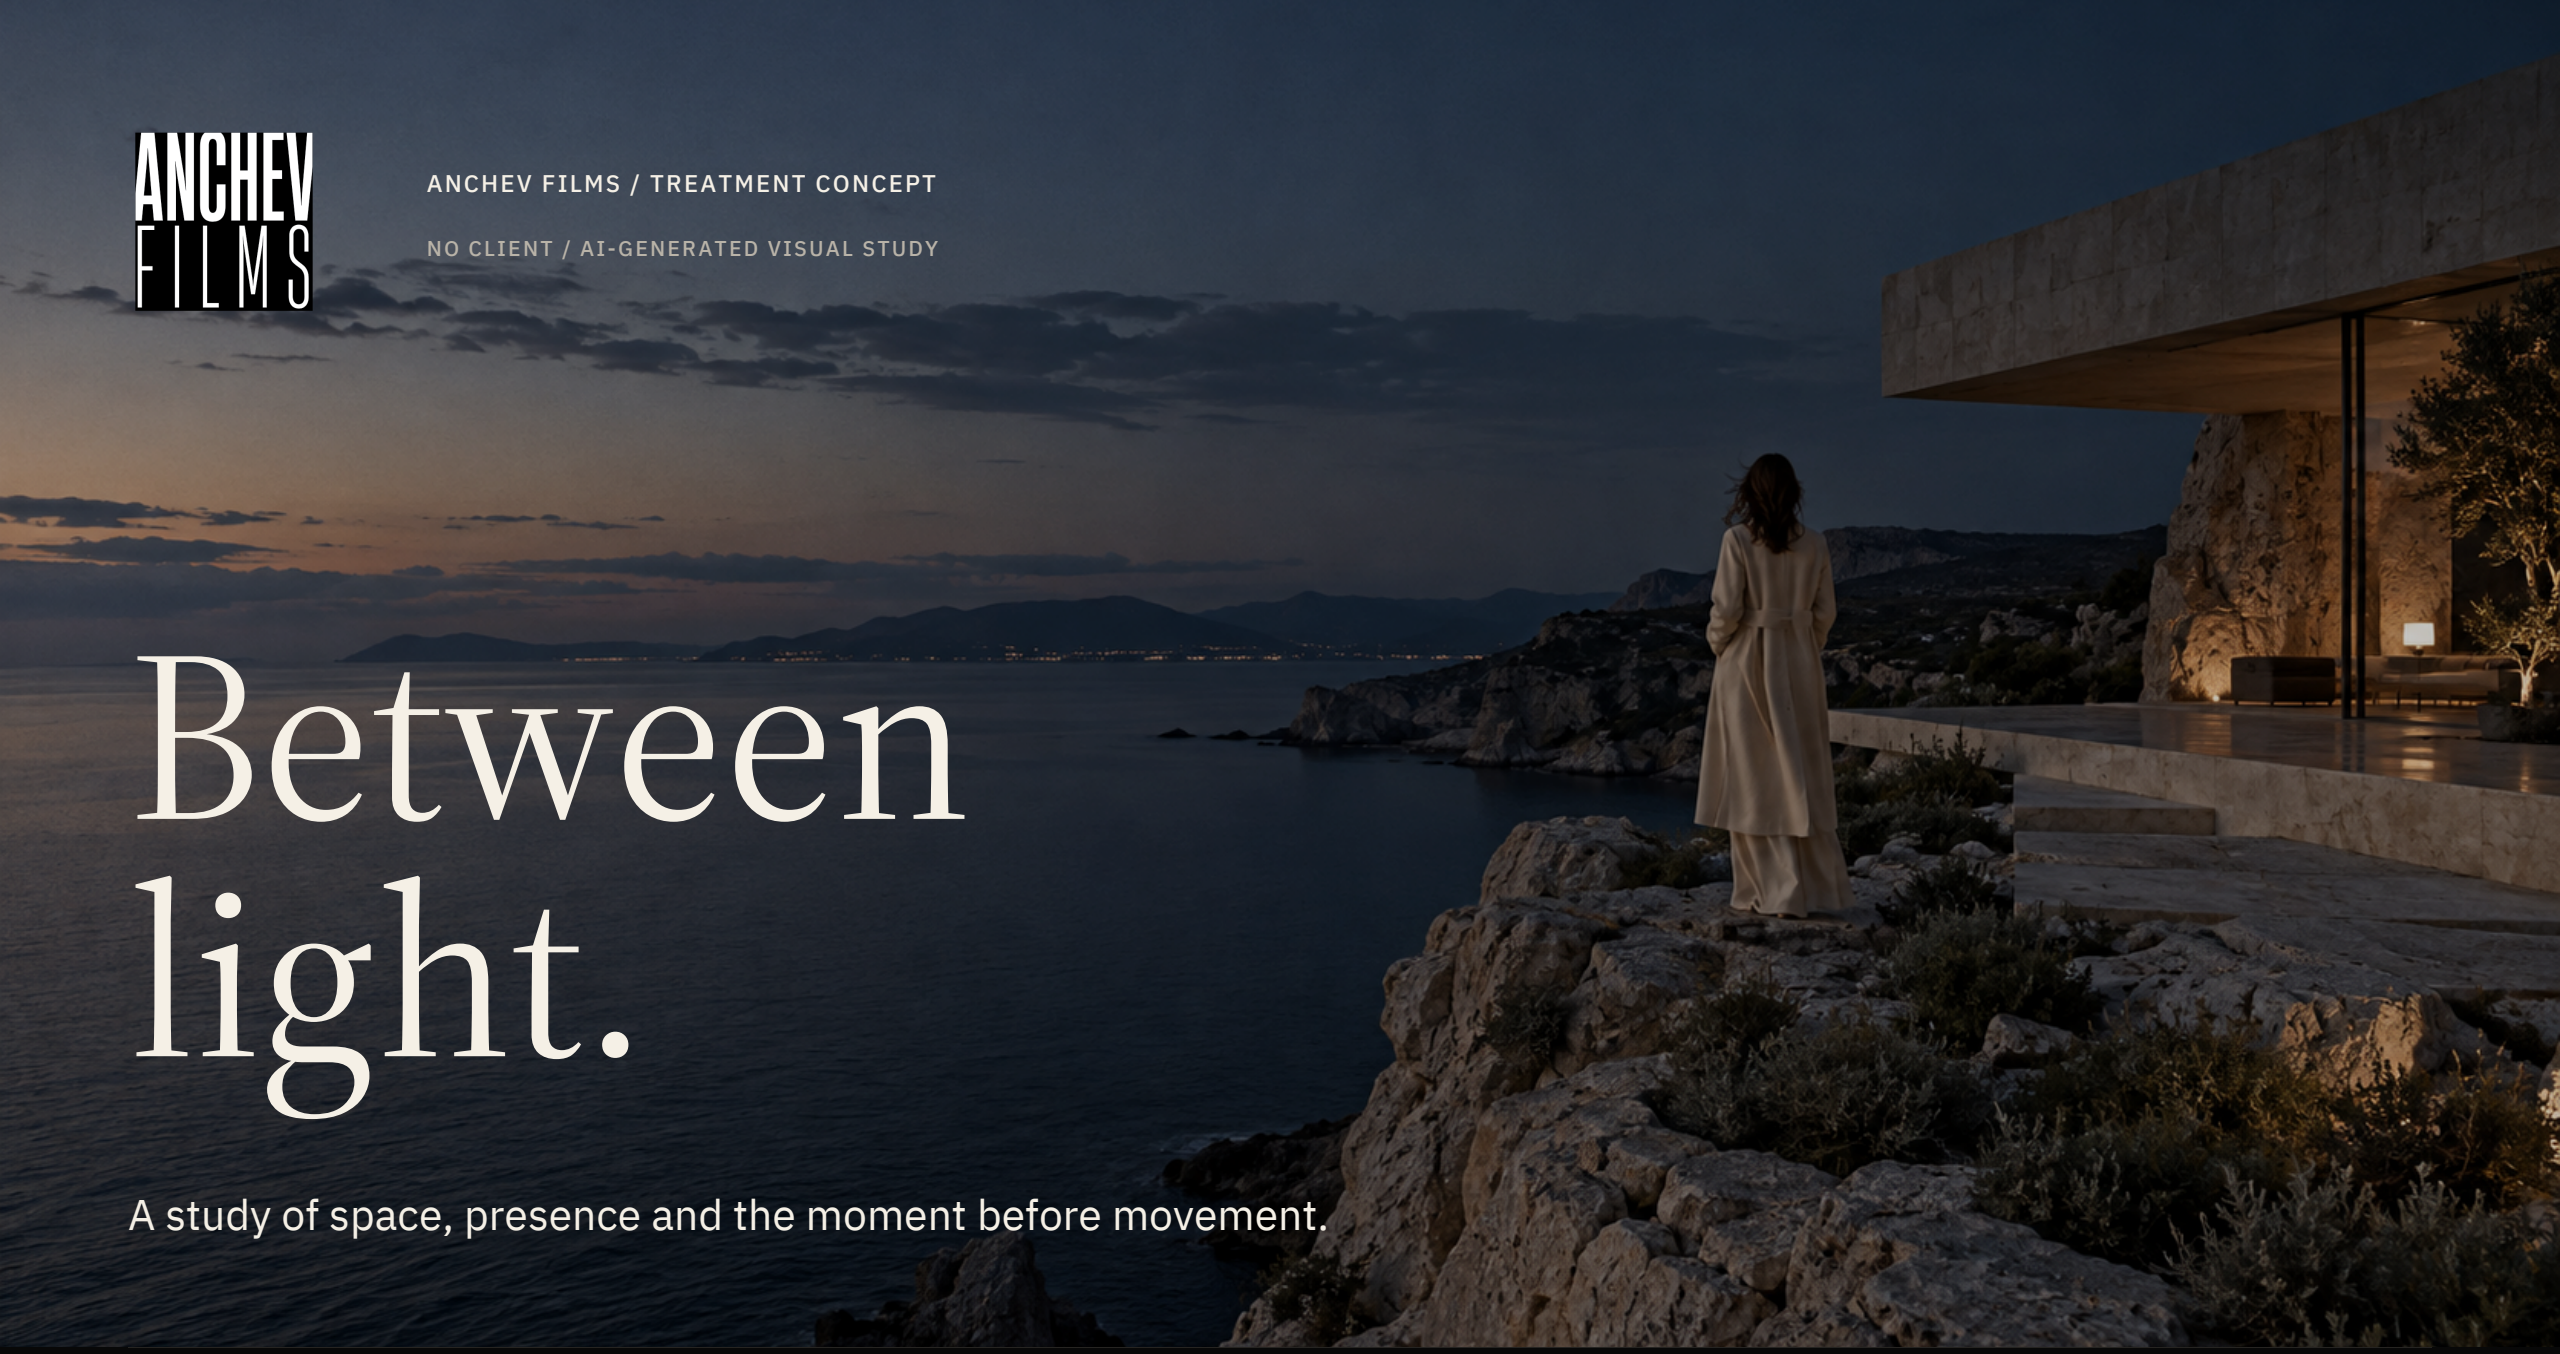

16:9 / lower-third template / 10% title inset

1080p: lower-third name 42 px / role 28 px; max two lines, 4-6 s hold. Subtitles 42-48 px, 1.2 leading, max two lines; use an opaque or tested dark backing.

Κάθε ιστορία ξεκινά με μια επιλογή.

Widescreen: calculate the 10% title inset inside the active image, not the letterbox. Vertical 1080 × 1920: reserve 90 px sides, 180 px top, 320 px bottom for platform UI; verify in-app before release.

ANCHEV FILMS / TREATMENT CONCEPT

NO CLIENT / AI-GENERATED VISUAL STUDY

Between light.

A study of space, presence and the moment before movement.

A treatment should read like a film.

01 / CONCEPT

A place becomes a point of view.

Proposed visual study: a figure arrives at the edge of a building and the sea. We stay with the pause before the next action. The architecture frames the person without explaining them.

MOODBOARD / AI CONCEPT, NOT CLIENT WORK

Director’s note	State the dramatic intention in one paragraph.
Cinematography	Specify light, lens behavior and movement, with reasons.
Structure	Map opening / shift / resolution before the shot list.

Treatment sequence: cover, concept, director’s note, story structure, visual references, cinematography, sound, production approach. Credit every external reference.

A proposal makes the film achievable.

ANCHEV FILMS

PRODUCTION PROPOSAL

[Project title]

[Client / agency]

Version 01 / [date]

ab@anchevfilms.com

02 / SCOPE & DELIVERY

Clear scope. Clear decisions.

SECTION	REQUIRED CONTENT
Creative overview	Brief, audience, idea and intended response.
Production approach	Shoot days, locations, crew, casting and post workflow.
Timeline	Treatment / pre-production / shoot / edit / approval / delivery.
Deliverables	Duration, ratios, languages, captions, codecs and usage.
Budget	Line items, subtotal, tax treatment and payment milestones.
Terms	Rights, revision rounds, exclusions, change process and validity.

Brackets mark editable template fields. Do not invent a budget or contractual terms. Confirm the commercial scope and rights with the producer before issuing a proposal.

A company presentation, built around films.

01 Introduction

02 Selected films

03 Creative capabilities

04 Production approach

05 Studio & verified team

06 Contact

16:9 format; one idea per slide; full-width films interleaved with quiet text. Presentation type: 48-72 pt headlines, 22-28 pt body, 16 pt minimum captions. No crowded client-logo wall.

Small surfaces, exact choices.

Boris Anchev

Founder / Producer

Athens, Greece

PRINT SPECIFICATION

85 × 55 mm; 3 mm bleed; 4 mm internal safe margin. 350-400 gsm uncoated stock. One-color black / white baseline; optional brass foil only after a physical proof.

EMAIL SIGNATURE / LIVE TEXT

Boris Anchev | Anchev Films

Film production / Athens, Greece

ab@anchevfilms.com · anchevfilms.com

Email uses Arial fallback and live text, no background image or large logo. Print specimens use the proposed black rendering of the unchanged original mark.

Production documents should disappear into use.

ANCHEV FILMS

CALL SHEET / TEMPLATE

[Project] / [Shoot date] / v01

TIME	SCENE / ACTION	LOCATION / PEOPLE
[Time]	Crew call	[Confirmed location]
[Time]	Safety briefing	All crew
[Time]	[Scene / setup]	[Cast / department]
[Time]	Meal break	[Confirmed time]
[Time]	Wrap / media handover	[Responsible names]

CONFIRMED CONTACTS / ACCESS / SAFETY

PRACTICAL DEFAULTS

Plex 10-11 pt at A4. Black text on white; tabular numbers for times. Version, date and page number on every sheet. Never use a cinematic dark background for working call sheets.

Schedules: time / scene / location / cast / department. Storyboards: frame / action / lens / duration / sound. Briefs: objective / audience / scope / approvals. Credits: role / approved name / order.

Production contacts, emergency details and personal information are placeholders here; populate from confirmed production records and distribute only to the relevant crew.

Let the work lead the feed.

Let the still stand alone. Put context and full credits in the caption.

FILM STILL

New film.

Speak Up.
Take Action.

A simple release announcement. Use a confirmed date in the caption.

ANNOUNCEMENT

THE PEOPLE

George Stamou
Director

Boris Anchev
Producer

Name each role accurately. Link to the complete approved credits.

CREDITS

Show production craft and collaboration. Credit the photographer.

BEHIND THE SCENES

NEWS / TEMPLATE

[Headline]

[Confirmed date and details]

Use a specific headline. Brackets are editable template fields.

COMPANY NEWS

A film is a collaboration.

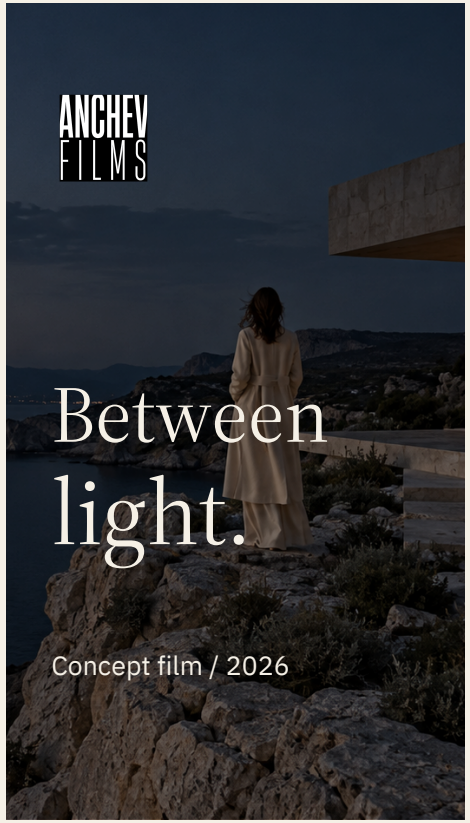

A PROCESS STORY

For a project launch, pair the idea with verified process and credits.

LINKEDIN / LAUNCH

Square layouts shown: export at 1080 × 1080. Adapt to 1080 × 1350 by extending the image or negative space, not stretching. New-production and festival posts require verified names, dates and selections.

Film announcements across formats.

9:16 STORY / REEL COVER

FILM POSTER CONCEPT

One frame. One title. One useful next step.

Story: 1080 × 1920. Keep title and call-to-action inside the safe region defined on page 44. Reel covers must survive profile and feed crops; test the current platform preview.

Film announcements and festival posts use confirmed release dates and approved laurels only. The poster shown here is fictional, with no client, cast, release or festival claim.

A quiet presence in physical space.

ENTRANCE SIGNAGE / CONCEPT

DOOR PLATE

FOLDER

CASE LABEL

All physical applications are conceptual. Use flat finishes, restrained scale and real fabrication proofs. Crew clothing: one small monochrome mark, no oversized equipment-style graphics.

Consistency without sameness.

MANDATORY AFTER ADOPTION

Logo
Use the supplied mark; protect ratio, clear space and minimum size.

Type & color
Use documented font files and semantic colors; preserve language tags.

Structure
Keep the grid, readable measures, focus visibility and verified credits.

Access & performance
Retain captions, keyboard operation and reduced-motion behavior.

Asset integrity
Keep originals separate from proposed marks and concept imagery.

CREATIVE FREEDOM

Film imagery
Each film retains its own grade, texture, framing and emotional world.

Treatment direction
Adapt moodboards, title treatments and image rhythm to the brief.

Campaign composition
Scale, density and cropping can change within safe/readable bounds.

Film titles & sound
A director may commission film-specific graphics and sonic identity.

Collaborations
Supply this guide; agree deviations with the responsible producer.

Proposed owner: a named brand lead at Anchev Films. Record approvals, source licenses and version changes in the asset register. Review quarterly and whenever a new channel is added.

Design decisions, translated into tokens.

SEMANTIC COLORS / LIGHT DEFAULT

--brand-primary: #080808;

--border-strong: #6B665E;

FONT AND SCALE TOKENS

Display: AF Source Serif 4 Display
Body: IBM Plex Sans
Hero: clamp(2.75rem,
1.542857rem + 4.952381vw, 6rem)
Display line height: 1.02
Body line height: 1.6

The supplied JSON is the shared specification. The CSS includes self-hosted @font-face declarations, light/dark semantic roles, full responsive type styles and opt-in components.

The internal CSS display alias distinguishes the static Display optical cut. The official family remains Source Serif 4. All values are proposed implementation standards.

Integrate with the existing architecture.

STEP	SPECIFICATION
1 / Add assets	Place CSS and fonts together; retain relative ./fonts paths. Keep OFL notices. Font faces use swap.
2 / Apply classes	Load after main.css. Add af-brand, af-container and component classes progressively; do not replace the CMS.
3 / Keep content	Keep /api/settings, project IDs, routes, credits and media records. Add presentation fields only when needed.
4 / Use image sizes	Responsive AVIF/WebP with width/height and srcset. Original aspect ratio for the main player. Lazy-load below fold.
5 / Budget the hero	Poster first; preload one text and one display cut only. Two initial font files total about 145 KB. Defer video and third-party players.
6 / Release with checks	Keyboard, 320 px reflow, 200% zoom, slow network, language samples and real device checks before rollout.

Targets, not measured site results: LCP ≤2.5 s, INP ≤200 ms, CLS ≤0.1 at the 75th percentile. Confirm through field data. Performance budgets must not reduce captions or accessibility. [29]

The system at a glance.

ANCHEV FILMS

Original mark.
Two typefaces. Three core colors.

#080808

#F5F0E6

#C7A66A

TYPE

Source Serif 4 Display
IBM Plex Sans
Use lang=en / el / bg.

SPACE

4 px base / 12-8-4 columns
48-32-20 px page margins
Logo clearance W / 8.

BEHAVIOR

4.5:1 normal text
48 px brand touch targets
Reduced motion by default preference.

Retain the logo and core colors. Adopt the type, layout and motion rules together. Let every film keep its own visual identity.

Delivery: selectable text, embedded font subsets, clickable contents and PDF bookmarks. 960 × 540 pt landscape RGB master. Print at trim size after proofing; not a PDF/X or press-certified file. Source web images are 1200-1920 px, so replace them with production masters for large premium print runs.

No authoritative vector logo master was available. The original raster is preserved; do not enlarge it beyond its intended use without obtaining the master.

The work is the signature.

Keep the mark. Give typography a clear voice. Let warm light and deep contrast share the page. Present the films with precision, and leave space for their differences.

PROPOSED CREATIVE PRINCIPLE
